### Lionridge's Guiding Investment Principles

- We are investors, not speculators
- We do not follow the index
- We are driven by our fundamental research
- We think risk before return
- We concentrate our investments in our best ideas
- We hold cash in the absence of opportunities
- We hunt globally

### Portfolio Objective

The objective of the Lionridge Total Equity Portfolio is to maximize long-term returns while minimizing long-term risk by investing in a concentrated portfolio of undervalued securities. The manager seeks to invest in securities only at prices offering a margin of safety, with a view to achieving the dual objectives of outstanding returns along with protection of capital. The strategy has a global focus and the manager has discretion over the geographic allocation of assets.

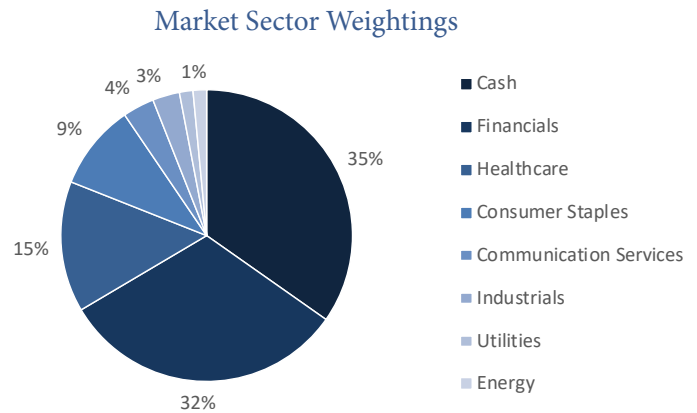

## Effective Risk Management

Protection of capital is paramount. Lionridge's favourable drawdown data demonstrates a history of lower downside volatility.

-Lionridge utilizes a combination of broad market indices such as the S&P/TSX Composite Total Return index and the MSCI World index (Gross in CAD\$) as the blended benchmark for comparison purposes. The blended benchmark is historically a general reflection of the nature of the securities held in the Lionridge Total Equity Portfolio Composite. The indices are unmanaged and do not incur management fees, transaction costs or other expenses associated with managed accounts.

-The Composite consists of all fully discretionary accounts managed by Lionridge Capital Management Inc., according to the investment objective of the Lionridge Total Equity Portfolio. Return figures are presented in Canadian dollars, are gross of management and custody fees but are net of all trading expenses, and include cash holdings. There is no minimum portfolio value required for inclusion. Inception date of the Lionridge Total Equity Portfolio Composite is March 31, 2011.
